

SUBCONTRACT

Job

AGREEMENT BETWEEN CONTRACTOR AND SUBCONTRACTOR

This subcontract agreement (the "Agreement") made on this day of , **20** .
between:

Aim Waste Management Inc.
400 Jones Road
Stoney Creek, ON L8E 5P4
(the "Contractor")

and:

(the "Subcontractor")

Whereas the Contractor has entered into an agreement (the "Prime Contract") dated the day of , 20 with:

(the "Owner")

for the construction of:

(the "Project")

Whereas the Prime Contract includes the work (the "Subcontract Work") to be performed under the Agreement in accordance with the instructions of and documents of and for:

(the "Consultant")

THE PARTIES AGREE as follows:

ARTICLE 1 - WORK TO BE PERFORMED

1.1 The Subcontractor shall supply all material, labour, tools and equipment necessary for the proper performance of the Subcontract Work as set out in **Schedule "B"**.

- 1.2 The Subcontractor shall perform the Subcontract Work in accordance with and, in case of conflict, in the following order of precedence (highest to lowest):
- a) the Agreement;
 - b) all contract documents (the "Contract Documents") comprising and set out in the Prime Contract, plus, if not part of the Contract Documents, the instructions to bidders, general conditions, and supplementary general conditions for the Prime Contract; and
 - c) if not already included in the Contract Documents, the plans, specifications and addenda prepared by and for the Consultant and the Contractor. All of these documents shall be referred to as the Specifications. The Specifications include, without limitation, those documents set out in **Schedule "A"**.

ARTICLE 2 - SCHEDULE

- 2.1 The Subcontractor will perform the Subcontract Work:
- a) In accordance with a schedule provided by the Contractor at the time of signing the Agreement; or
 - b) If no schedule is provided by the Contractor then starting on or about _____, and substantially completing the Subcontract Work by _____;
- 2.2 The Contractor may, for any reason, reasonably adjust or impose any schedule or specified timing during the course of the Project after consulting with the Subcontractor. If the Subcontractor is not able to meet the schedule, the Contractor may subcontract to others to perform a portion of the Subcontract Work; the Subcontract Price shall be reduced by the Contractor's cost in doing so.
- 2.3 If the Subcontractor does not perform the Subcontract Work in accordance with the Contractor's schedule, regardless whether the Contractor subsequently extends the schedule, the Subcontractor shall be liable to the Contractor for all costs that the Contractor incurs due to the delay. These costs include, without limitation, liquidated or other damages to the Owner arising out of the Prime Contract. If more than one subcontractor of the Contractor at the Project causes the delay, the Contractor, acting reasonably, shall calculate the Subcontractor's proportionate share of the delay and the costs and the Subcontractor shall be liable for the proportion so calculated.
- 2.4 In case of delay caused by circumstances beyond the control of the Contractor, it may suspend the Subcontractor's performance of the Agreement in whole or in part. The Contractor may then call upon the Subcontractor to resume performance at any subsequent time and the Subcontractor shall do so and execute the balance of its obligations. The Contractor shall not be liable to the Subcontractor for any damages or costs that the Subcontractor suffers or incurs because of the suspension or resulting delay. However, the time to complete the Subcontract Work shall be extended by the period during which it was inactive due to the suspension of Subcontract Work or by whatever lesser time as would be reasonable in the circumstances.

ARTICLE 3 - SUBCONTRACT PRICE

- 3.1 The Subcontract Price is the sum of: _____ and 00/100 Dollars (\$) _____) in Canadian funds plus applicable GST and HST. The Subcontract Price includes all other taxes, customs duties, patent fees and other applicable charges or fees in effect at the time of the execution of the Subcontract.

ARTICLE 4 – PAYMENT

- 4.1 The Contractor shall make progress payments to the Subcontractor on account of the Subcontract Price. The Contractor need not make a progress payment under any of the following circumstances:
- a) until the Consultant/Owner, as the case may be, has certified that the Subcontractor has completed the portion of the Subcontract Work claimed in the progress application;
 - b) if any person doing a portion of the Subcontract Work and claiming through or under the Subcontractor (a "Subsub"), has encumbered the Project by way of a lien. The Contractor need not make the payment for as long as the Project is so encumbered or any security posted by the Contractor to vacate the lien is still outstanding;
 - c) if a Subsub has notified the Contractor that the Subsub is claiming against the Contractor for monies the Subcontractor owes for the Subsub's work on the Project. The Contractor may hold back the amount of the claim for as long as the claim is still outstanding;
 - d) until the Subcontractor has delivered an executed copy of the Agreement to the Contractor; and
 - e) until the Subcontractor has delivered proof that it has complied with the insurance provisions of article 10.

Use if cannot get schedule of values completed before contract signed

- 4.2 The Subcontractor shall submit a schedule of values of the various parts of the Subcontract Work to facilitate the evaluation of each application for payment. The schedule shall be in the format annexed as **Schedule "C"**. The sum of the values shall be the Subcontract Price. The completed schedule shall be submitted to the Contractor as soon as possible, but prior to the first application for payment. The Contractor is under no obligation to process any application for payment until it receives and approves the schedule.
- 4.3 To make an effective application for payment, the Subcontractor must submit all invoices for work done in the current month, together with evidence of compliance with applicable workers' compensation legislation, supporting statutory declarations, and any other documents that the Contractor requires, on or before the 25th day of the current month. The application shall cover the value for the part of the Subcontract Work that the Subcontractor has performed up to the last day of the current month. It must be in accordance with the approved schedule of values.

Use if can get the schedule of values completed before contract is signed

- 4.2 To facilitate the evaluation of each application for payment, a schedule of values of the various parts of the Subcontract Work is annexed as **Schedule "C"**. The sum of the values equals the Subcontract Price. Applications for payment shall be based on the schedule of values and the Contractor is under no obligation to process any application for payment that is not based on the schedule of values.
- 4.3 To make an effective application for payment, the Subcontractor must submit all invoices for work done in the current month, together with evidence of compliance with applicable workers' compensation legislation, supporting statutory declarations, and any other documents that the Contractor requires, on or before the 25th day of the current month. The application shall cover the value for the part of the Subcontract Work that the Subcontractor has performed up to the last day of the current month.
- 4.4 If the Contractor, or the Consultant/Owner, as the case may be, makes any changes to any amount in a payment application, the Contractor shall promptly notify the Subcontractor, orally or in writing, of the reasons. The Contractor shall give the Subcontractor the opportunity to defend the submission.

- 4.5 Subject to the provisions in this article 4 and applicable lien and maintenance holdbacks, the Contractor shall pay the amount owing from each payment application within 30 days of the end of the current month or 10 days after certification of the payment by the Consultant/Owner, as the case may be, whichever is later.
- 4.6 Subject to the provisions of this article 4 and upon the Subcontractor submitting evidence of compliance with applicable workers' compensation legislation, supporting statutory declarations, and any other documents that the Contractor requires, the Contractor shall pay statutory holdback monies in accordance with applicable lien legislation, the Specifications, and the Prime Contract.
- 4.7 The release of statutory holdback monies shall not be due until authorised by the certificate of the Consultant/Owner, as the case may be, and are not due until the later of:
- a) the expiration of all rights to claim for lien arising from the performance of the Subcontract Work;
 - b) 10 days after the issue of the certificate; and
 - c) the number of days stipulated in the Specifications and the Prime Contract when holdback monies may be released after the issue of the certificate.
- 4.8 Notwithstanding any other provisions in article 4, if there are any items of the Subcontract Work that the Subcontractor has not performed, or has performed with deficiencies, the Contractor may withhold money from payments made on the Subcontract Price until the items and deficiencies are completed and rectified. The Contractor may withhold those monies that the Contractor determines are sufficient and reasonable to cover the cost of performing the items and deficiencies and to adequately protect the Contractor from claims.
- 4.9 Notwithstanding any other provisions of the Agreement, as a condition precedent to the Contractor's obligation to make any payment to the Subcontractor under the Agreement, the Contractor must have received a corresponding amount from the Owner that includes the amount otherwise payable to the Subcontractor. The requirement for a "corresponding amount" also applies to amounts for changes in the Subcontract Work that are changes in the work of the Prime Contract. Without limitation, a payment includes a progress, holdback, final, and maintenance payment.
- 4.10 The Contractor may set off, against any money it owes to the Subcontractor, any money that the Subcontractor owes to the Contractor or any damages, liquidated or not, for which the Subcontractor is responsible to the Contractor, whether the monies owing or the damages arise out of the Agreement or any other agreement between the parties.
- 4.11 If the Subcontractor so directs in writing, the Contractor may, but need not, pay any invoice towards the Subcontract Price earlier than otherwise due and receive a 2% discount towards the quantum of the invoice and a corresponding reduction in the Subcontract Price. An invoice for a particular month that the Contractor pays within the first 16 days of the following month qualifies for the discount. The parties must agree in advance on a case-by-case basis to any other pre-payment that would qualify for the discount.

ARTICLE 5 - CONTRACTOR'S RIGHT TO PERFORM THE WORK, STOP THE WORK OR TERMINATE THE SUBCONTRACT

- 5.1 If the Subcontractor is adjudged bankrupt, has breached the trust fund provisions of the applicable lien legislation, or makes a general assignment for the benefit of creditors or if a receiver is appointed on account of the Subcontractor's insolvency, then the Contractor may, without prejudice to any other right or remedy the Contractor may have, terminate the Agreement, by giving written notice to the Subcontractor, receiver, or trustee in bankruptcy, as the case may be.
- 5.2 If the Subcontractor neglects to prosecute the Subcontract Work properly or fails to perform any provisions of the Agreement, the Contractor may notify the Subcontractor in writing that the Subcontractor is in default of the Subcontractor's contractual obligations and instruct the Subcontractor to correct the default within two (2) working days of receiving the notice.
- 5.3 If the work or action stated in the notice as requiring correction cannot be completed within two (2) working days, the Subcontractor shall be considered to be in compliance with the Contractor's instructions if the Subcontractor commences the work or action within the specified time, provides the Contractor with a schedule for performance acceptable to the Contractor, and proceeds to perform in accordance with the schedule.
- 5.4 If the Subcontractor fails to comply with the provisions of sections 5.2 or 5.3, the Contractor may, without prejudice to any other right or remedy the Contractor may have, do one or both of the following:
- a) Correct the default and deduct its cost from the Subcontract Price and any payment then due to the Subcontractor. For purposes of this section, if the Subcontractor has abandoned its Work or has failed to comply with section 8.3, cost includes the reasonable allowance referred to in section 5.5(c), to be dealt with pursuant to section 5.5(d).
 - b) Terminate the Subcontractor's right to continue with the Subcontract Work in whole or in part or terminate the Agreement.
- 5.5 If the Contractor terminates the Agreement or the Subcontractor's right to continue with the Subcontract Work under the conditions set out in sections 5.1 and 5.4, the Contractor is entitled to do any or all of the following:
- a) Take possession of the Subcontractor's products and use the Subcontractor's construction machinery and equipment, subject to the rights of third parties, and to finish the Subcontract Work by whatever method the Contractor deems expedient.
 - b) Withhold any further payments to the Subcontractor until the Subcontract Work is finished.
 - c) Charge the Subcontractor the amount by which the cost of finishing the Subcontract Work, together with a reasonable allowance, of at least 2% of the Subcontract Price, to cover the cost of any corrections required by the warranties for which the Subcontractor is liable, exceeds the unpaid balance of the Subcontract Price. If the cost of finishing the Subcontract Work is less than the unpaid balance of the Subcontract Price, the Contractor shall, subject to article 4, pay the Subcontractor the difference.

- d) On the expiry of any warranty period that might exist, charge the Subcontractor the amount by which the cost of corrections under warranty exceeds the allowance provided for these corrections or, if the cost of the correction is less than the allowance, credit the difference to the Subcontractor.

5.6 If the Owner suspends the Prime Contract work, then the Subcontract Work shall also be suspended for the same period of time. If the Owner terminates the Prime Contract without cause, then the Contractor may terminate the Agreement without cause. If the Contractor suspends the Subcontract Work or terminates the Agreement under the provisions of section 5.6, then the only remedy of the Subcontractor is for the Contractor to compensate it for in the same manner as the Owner is to compensate the Contractor under the Prime Contract and only to the extent that the Contractor receives compensation from the Owner that encompasses the compensation due to the Subcontractor.

5.7 The preceding provisions in this article do not exclude any right to terminate that the Contractor might have at law.

ARTICLE 6 - SUBCONTRACTOR'S RIGHT TO STOP THE WORK OR TERMINATE THE SUBCONTRACT

6.1 If the Contractor is adjudged bankrupt or makes a general assignment for the benefit of creditors or if a receiver is appointed on account of the Contractor's insolvency, the Subcontractor may, without prejudice to any other right or remedy the Subcontractor may have, terminate the Agreement, by giving written notice to the Contractor, receiver, or trustee in bankruptcy, as the case may be.

6.2 a) The Subcontractor may notify the Contractor in writing that the Contractor is in default of the Contractor's contractual obligations, if the Contractor fails to pay any sum due to the Subcontractor in accordance with article 4.

b) This notice shall advise the Contractor that if the default is not corrected within ten (10) working days from the receipt of the written notice, the Subcontractor may ultimately terminate the Agreement.

c) If the Contractor has not corrected the Contractor's default in payment in response to the Subcontractor's notice within ten (10) working days from the receipt of the notice, the Subcontractor may give the Contractor a further notice in writing to correct the default.

d) If the Contractor fails to pay the Subcontractor within ten (10) working days following receipt of the further notice, the Subcontractor may terminate the Agreement. Until the Subcontractor terminates the Agreement in accordance with the notice provisions, the Subcontractor must continue performing the Subcontract Work.

ARTICLE 7 - ASSIGNMENT

7.1 Neither party shall assign the Agreement or any portion of it without the written consent of the other, which consent shall not be unreasonably withheld.

ARTICLE 8 - SUB-SUBCONTRACTORS AND SUPPLIERS

8.1 The Subcontractor agrees to employ only those Subsups and supply only those materials that the Subcontractor has proposed in writing by the time the Contractor has accepted the Subcontractor's tender. The Subcontractor shall not subcontract any other aspects that are

included in the Subcontract Work without first obtaining the Contractor's written consent, which may not unreasonably be withheld.

- 8.2 The Contractor may arbitrarily order the Subcontractor to change any one or more of its Subsubs that it had previously proposed and the Contractor had agreed upon. However, the Contractor must then increase the Subcontract Price by the amount, if any, by which the price of the Contractor's choice of Subsub exceeds the price of the Subcontractor's choice of Subsub.
- 8.3 Within 15 days of the registration of a Subsub's claim for lien against title to the Project, the Subcontractor shall vacate the lien from title. In default, the Contractor has the right, at its option, either to vacate or to pay and discharge any such lien claim and recover from the Subcontractor all amounts and costs in doing so, including interest charges and legal, administrative, and bonding costs.
- 8.4 The Subcontractor is liable for the acts, omissions, and work of its Subsubs as if the acts, omissions, and work were that of the Subcontractor.

ARTICLE 9 - CHANGES IN THE WORK

- 9.1 The Contractor, without invalidating the Agreement, may make changes by altering, adding to, or deducting from the Subcontract Work. The Subcontract Price and the schedule will be amended pursuant to the provisions set out in the Prime Contract.
- 9.2 The Subcontractor shall perform no work additional to the Subcontract Work and shall make no changes without a written order from the Contractor.

ARTICLE 10 – INSURANCE AND BONDING

- 10.1 The Subcontractor shall provide, maintain and pay for general liability insurance, automobile liability insurance, aircraft and watercraft liability insurance, and any other insurance specified in the Prime Contract, other than property insurance. The amounts of the insurance coverage for the Subcontractor shall be commercially reasonable, but at least as much as called for in the Prime Contract.
- 10.2
- a) Unless specified otherwise in the Prime Contract, the duration of each insurance policy shall be from the date of commencement of the Subcontract Work until the date of the final certificate for payment of the Prime Contract.
 - b) The Contractor shall be shown as an additional named insured on each policy as it affects the Project.
 - c) The policies shall be endorsed with the insurer's undertaking to provide the Contractor with not less than thirty (30) days written notice in advance of cancellation, change, or amendment restricting coverage.
- 10.3 The Subcontractor must supply the Contractor with certificates of insurance, or the actual policy if the Contractor so requests, showing compliance with this article before the first application for payment of the Subcontract Price and upon the placement, renewal, amendment, or extension of all or any part of the insurance.

- 10.4 Either the Contractor or the Owner will arrange for and maintain property insurance in accordance with the Prime Contract. If the Subcontractor, or any of its Subsups, causes a loss that is insured under the property insurance policy, the Subcontractor shall only be responsible to pay for any deductible amounts under the policy.
- 10.5 The Subcontractor shall be responsible for securing its own tools, equipment, and, until they have been incorporated into the Project, building materials against any eventuality, including theft and vandalism. The Contractor shall not be responsible for any loss to them, whether caused by the negligence of the Contractor or otherwise. The Subcontractor shall obtain appropriate insurance to insure this risk and the provisions of section 10.2 shall apply to it.
- pick one*
- 10.6 The Subcontractor need not provide the bond(s) that the Contractor is to provide under the Prime Contract.
- 10.6 The Subcontractor shall provide a performance bond using the most current version of CCDC 221 – Performance Bond. The performance bond shall be in an amount of 50% of the Subcontract Price.

ARTICLE 11 - INDEMNIFICATION

- 11.1 In addition to the Subcontractor's duty to indemnify under the provisions of the Prime Contract incorporated by reference, the Subcontractor shall indemnify and hold harmless the Contractor and its agents and employees from and against all claims, demands, losses, costs, damages, actions, suits or proceedings (collectively, the "Claims") by third parties and the Owner that arise out of, or are attributable to, the Subcontractor's performance of the Agreement.

The Claims by third parties, but not the Owner, must be:

- a) attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property, and
- b) caused by negligent acts or omissions of the Subcontractor or anyone for whose acts the Subcontractor may be liable.

ARTICLE 12 - CLEAN UP

- 12.1 The Subcontractor shall, on a day-by-day basis, at its own expense and to the satisfaction of the Contractor, keep its work areas in a tidy condition and free from the accumulation of waste products and debris. It shall remove from the Project all waste products and debris caused by the performance of the Subcontract Work. If it fails to perform these housekeeping requirements, the Contractor has the right to have the work performed by whatever means may be expedient and the Subcontractor agrees that the Subcontract Price shall be reduced by the costs of the clean-up and removal of the waste products and debris.
- 12.2 When the Subcontractor has completed its Subcontract Work, the Subcontractor shall remove all surplus products, tools, machinery and equipment, and any waste products and debris and leave the Project in a clean and tidy condition to the Contractor's satisfaction. Until the Subcontractor has complied with this section, it shall be deemed not to have totally performed the Subcontract Work.

ARTICLE 13 – SAFETY

- 13.1 In performing the Subcontract Work, the Subcontractor agrees to respect and comply with all necessary procedures and requirements (the "H&S Requirements") in accordance with the following: all applicable legislation passed by federal, provincial, and local authorities governing health and safety; the safety requirements set out in the Prime Contract; and the Contractor's safety policy, as attached to the Agreement and amended from time to time.
- 13.2 Before commencing its Subcontract Work, the Subcontractor shall:
- a) submit an approved "Registration of Constructors and Employers Engaged in Construction" form to the Contractor; and
 - b) provide the Contractor with the Subcontractor's health and safety policy, not for the Contractor's approval, but rather to demonstrate that the Subcontractor has a health and safety policy.
- 13.3 The Subcontractor acknowledges that the Contractor has a zero tolerance policy for workers who do not comply with the H&S Requirements. If any of the on-site personnel of the Subcontractor, and any Subsub of that Subcontractor, breach the H&S Requirements, the Contractor will warn with a written violation notice and assess damages of \$100, or more if incurred, for the infraction. The amount of \$100 represents compensation for the time that the Contractor expects to spend in noting the violation and sending the violation notice. The Subcontractor agrees that the Subcontract Price shall be reduced by the damages set out above. If a person commits three infractions for which a violation notice was given, then, upon receipt of the third violation notice, the Subcontractor shall permanently eject that person from the Project site.
- 13.4 In addition to its obligations under the Prime Contract that are incorporated by reference pursuant to the Agreement, the Subcontractor shall ensure that, while any of its labourers, material suppliers, or Subsubs are working at the Project site, a foreman/superintendent employed by the Subcontractor shall also be present at the Project site to direct and oversee the Subcontract Work. The foreman/superintendent must be sufficiently fluent in the English language to be understood by the Contractor's superintendent and employees, other subcontractors on the Project, and the labourers, material suppliers, and Subsubs.

ARTICLE 14 – GENERAL PROVISIONS

- 14.1 The Agreement shall be interpreted in accordance with the law of the place of the Project. It is the entire agreement between the parties and supersedes all prior negotiations, representations, and agreements, written or oral, including any bid or tender from the Subcontractor.
- 14.2 The Subcontractor shall be responsible for all permits, licences, and certificates necessary for the performance of the Subcontract Work.
- 14.3 The Subcontractor shall give all required notices and comply with all laws, ordinances, rules, regulations, codes, and orders of all authorities having jurisdiction that are or become in force during the performance of the Agreement and that govern the Subcontract Work.
- 14.4 The Subcontractor shall make no delivery of material or equipment at the Project site without proper packaging and without first arranging for the delivery with the Contractor's site superintendent. The Contractor may refuse to accept any delivery made or attempted to be made in contravention of this section and, upon the Contractor's direction, the Subcontractor

shall forthwith remove the material or equipment from the site at its own expense.

- 14.5 If the Agreement refers to costs that the Contractor has incurred for which the Subcontractor is liable, these costs shall be increased by a 10% surcharge to take into account the Contractor's profit and overhead. This surcharge is in substitution for any surcharge set out in the Contract Documents and not in addition to it.
- 14.6 Subject to the following, the terms and conditions of the Prime Contract are binding upon the Contractor and the Subcontractor for the Subcontract Work as if the Contractor were the Owner and the Subcontractor were the contractor in the Prime Contract.
- a) The Prime Contract terms that are incorporated by reference are subject to the provisions of the Agreement and apply only if the Agreement is silent as to any term or condition dealt with in the Prime Contract. A term or condition shall not be incorporated by reference if the term or condition:
 - i) deals with a matter on which the Agreement is silent, but deals with the matter in such a way that it would not be in accordance with the spirit of similar matters in the Agreement; or
 - ii) deals with a matter that relates to a duty of the Contractor in its relationship with the Owner that would be nonsensical to be attributed to the Subcontractor.
 - b) All provisions of the Prime Contract dealing with arbitration, mediation, and dispute resolution apply to the Agreement. If the dispute between the parties is integrally tied to a similar dispute between the Contractor and the Owner, then the dispute must be resolved at the same time, and with the same mediator or arbitrator, as the dispute between the Owner and the Contractor. Any mediator chosen to be the project mediator for the Prime Contract shall be deemed the project mediator for the Agreement.
 - c) If the Prime Contract provides for the Contractor to present to the Consultant/Owner, as the case may be, any matters for decision, the Subcontractor shall present these matters to the Contractor and, if they also apply to the Prime Contract, the Contractor shall present them on the Subcontractor's behalf to the Consultant/Owner, as the case may be.
 - d) The Prime Contract may set out time limitations by which the Contractor must give notice to the Owner or Consultant for the notice, and rights asserted, to be effective. In each such case, for the Subcontractor's notice, and rights asserted, to be effective, the Subcontractor must give its notice to the Contractor at least two days before the date that the Contractor is required to deliver its notice to the Owner or Consultant.
- 14.7 Time is of the essence. No payment or forbearance to complain should be construed as a forbearance of a party's rights under the Agreement, without an express written agreement to that effect.
- 14.8 The Subcontractor shall conduct its affairs to ensure harmonious and stable labour relations at the Project and so as not to cause labour interference or disruption at the Project, whether or not related to the Subcontractor's Work. The Subcontractor represents that no labour agreement or lack of a labour agreement with its employees will adversely affect its ability to perform the Subcontract Work.

ARTICLE 15 - RECEIPT OF AND ADDRESSES FOR NOTICE

15.1 The parties shall give any notices or communications, which the Agreement requires, in writing. These notices or communications, and the Agreement itself, shall be sufficiently given by courier, fax, personal delivery, email, or postage prepaid ordinary mail. The document shall be addressed to the Contractor or the Subcontractor, as the case may be, at the addresses below or to any other address as may be notified from time to time in writing by either of them to the other. The document shall be deemed to have been received on the third business day following the day of the mailing or, if sent by courier, fax, email, or given personally, on the date on which it was received.
